Dear Mr. Noe;

Mr. D.O. Hibbard, recently returned from Y.M.C.A. service in Athens, and as he said acquainted with you was in at my home recently and in looking over my small assortment of coins was a bit interested in a few of them and a bit puzzled also. He suggested that I send 5 of them to you, stating that you would be pleased to help me in finding what they were since I have never been able to figure them out .

I am therefore enclosing them in this letter with the hope that if it is not of too much bother you might be able to tell me what they are. The three silver coins I purchased in the form of an old watch charm from a Hindu peddler in Bombay. It may give the least bit of a clew to their identity.

I am enclosing also a return letter for the answer.

Thanking you in advance, for this favor, I remain,

Very Truly Yours
Harlo H. Ferris
